

SculptZero

Face & body treatment platform

Vacuum / RF / 650 nm LED / Microcurrent / Ultrasound

Five technologies. One console.

SculptZero combines vacuum, radiofrequency, 650 nm LED, microcurrent (EMS) and 40 kHz ultrasound in a compact tabletop platform with six treatment handles.

5	6	Face & body
TECHNOLOGIES	TREATMENT HANDLES	APPLICATOR FORMATS

A coordinated treatment system.

VACUUM

Vacuum

Suction through dedicated applicators.

RF

Radiofrequency

RF delivery through multipolar treatment heads.

650 nm

LED light

650 nm light integrated into the treatment platform.

EMS

Microcurrent (EMS)

Electrical stimulation through the small multipolar applicator.

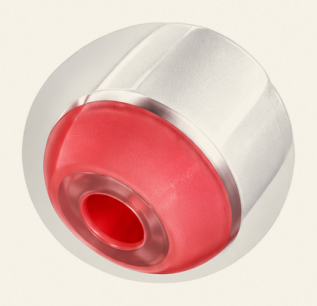

40 kHz

Ultrasound

40 kHz ultrasound through the body handpiece.

The treatment handle collection.

Two face applicators and four body applicators, organised by treatment format.

FACE

Vacuum RF (S)

FACE

LMP

BODY

Vacuum RF (M)

BODY

RF

BODY

Vacuum RF (L)

BODY

Whirlpool fat

Face and body workflows.

Face-focused care

Small vacuum RF and LMP applicators.

Body-focused care

Medium and large vacuum RF, body RF and ultrasound formats.

Integrated controls

On-console display, rotary control and organised handpiece holders.
