4-Circle RV

Sprayer

Cooling & heating

Small ultrasound

Large ultrasound

Aqua peeling

Aqua peeling caps

How It Works

Aqua peeling combines surface exfoliation, suction-assisted cleansing and the application of topical skincare solutions.

1

Exfoliation

Loosens surface debris.

2

Extraction

Suction helps lift debris away.

3

Topical infusion

Applies skincare solutions to the surface.

A versatile accessory platform

Ultrasound handpieces

Small and large applicator formats.

Thermal handpiece

Cooling and heating functions in one handpiece.

Sprayer

A dedicated spray accessory.

Aqua peeling tips

Interchangeable caps for the aqua peeling handle.

04 / APPLICATIONS

Everyday facial care.

A coordinated platform for cleansing, topical hydration and facial-care services.

Applications

1. **Cleansing & exfoliation**
   Aqua peeling for surface cleansing and exfoliation.

2. **Topical hydration**
   Application of moisturising skincare products.

3. **Facial-care services**
   Multiple handpieces within one organised platform.
